Your Week in SmartCash #1

Weekly highlights from the SmartCash Hive Teams and SmartCash community for the week of March 22nd, 2018.

SmartCash Community

Congratulations the winners of the [SmartCash Community Writing Contest](#)! You may view the winners and read all the entries [here](#).

Check out the entries to the [SmartCash Meme Contest on Steemit](#). The meme contest is accepting [new entries](#) until the 23rd March at 07:00 UTC.

There are eleven proposals currently open to community voting. Visit the [SmartHive Governance Portal](#) to vote on the projects.

This week's featured graphic is "[SmartCash: A Worldwide Community](#)" by Camakin.

Development Team

The network has completed the [1.1.1 upgrade](#) and is now in normal mode. SmartNodes require a minimum of about 18 days uptime to be eligible for rewards. Future upgrades will require a shorter upgrade period.

We are finalizing some tests on the new blockchain explorer which will be mobile friendly and installable using Azure PWA. A preview is [available here](#).

There are now 10,500 enabled SmartNodes on the SmartCash network.

Outreach Team

We were sponsors and were present at [Blockchain Unbound](#) and [CoinAgenda Caribbean](#) in San Juan, Puerto Rico. All proceeds from Blockchain Unbound will go to hurricane relief efforts in Puerto Rico.

You can now track estimated monthly SmartRewards at [smartrewards.cc](#). Statistics, past SmartReward information, and a [JSON data feed](#) is available.

BarterDEX has added SmartCash to their atomic swap platform. This allows to your trade SmartCash without using a 3rd party exchange. Download the latest BarterDEX Release Candidate v.8.13 [here](#).

SmartCash was mentioned in “[How to Intelligently Navigate the World of Cryptocurrencies](#)“.

There are now 9,887 Smarties on the [SmartCash Discord Server](#), 10,900 [followers of Scashofficial on Twitter](#), 2,350 subscribed to [/r/SmartCash on Reddit](#), 1,078 followers on [Steemit](#), 835 on [Instagram](#), 502 on the new [SmartCash Chat Telegram Channel](#), and a growing presence on [Gab.ai](#).

Support & Web Team

Three new 0% fee official mining pools are now available for increased stability, reliability, and performance of the SmartCash blockchain network. No registration is required for miners; only a SmartCash address is required.

The [new US mining pool](#) is active and has confirmed over 3,250 blocks already.

The [new Europe mining pool](#) is now live and has confirmed over 100 blocks already.

The [new Asia mining pool](#) is now live and is currently finding blocks.

Miners with a balance on the old pools have two weeks to withdraw pending balances. Mining on the old US and EU pools will be stopped soon. Miners on the Asia pool have two weeks to transition to the new pool.

There is a mining pool bot on to track your stats and provide alerts.
Message @MiningPoolBot or join #Mining on Discord for information.
