Your Week in SmartCash #11

Weekly highlights from the SmartCash Hive Teams and SmartCash community for the week of July 12, 2018.

SmartCash Community

Visit the vote.smartcash.cc to vote on seven open proposals, including “[Exclusive Sponsorship Reality Check w/ Ben Swann Powered by SmartCash](#)“!

Everyone celebrated the 1st birthday of the SmartCash Genesis Block on July 11th! In honor of this achievement, there is a community contest to win prizes for writing, graphics or videos. Check out the forum post to learn more and participate in the [SmartCash Anniversary Community Contest](#).

Listen to the “[SmartCash Dream](#)” song by MarshallLife on YouTube.

Read the [Team SmartCash update on Steemit](#) for the latest updates, including the banner contest winner.

This week’s featured graphic is a still from the video “Happy Birthday, SmartCash” by Dim.

Development Team

SmartCash v1.2.3 has been released! This is a required update for desktop wallets. This release includes several exciting new features as well as improvements to SmartNodes and SmartRewards. You can [read more about the update at this announcement post](#).

SmartNode starting from the [Smart Electrum wallet](#) is working and is in final testing this week.

The SmartCash Node Client will be adding a node configuration tool and perhaps in-wallet voting on proposals.

Edge wallet integration is in the testing stages now, adding support for this 3rd party wallet.

SmartCash is being integrated into a web-based point of sale system in Brazil for use at 43 stores.

Changelly integrations are being developed for in-wallet exchange of SmartCash for enhanced ease of use.

Outreach Team

SmartCash is hosting meetups around the world. Check out the [SmartCash meetups page](#) to find one near you.

Zaphoid attended the [“Take Human Action”](#) Bash on June 30th.

Adam Kokesh and Support Hive Team Member Zaphoid discussed cryptocurrency and its [role in creating a free society in this video](#).

Here's a great video of [SmartCash at TokenSky](#) in Japan.

You can now buy and sell SmartCash [directly on CoinMarketCap](#)!

There are now 13,639 Smarties on the [SmartCash Discord server](#), 13,135 [on Twitter](#), 2,698 subscribed to [/r/SmartCash on Reddit](#), 1,203 followers on [Steemit](#), 1,160 on [Instagram](#), 2,245 at the [SmartCash Chat Telegram Channel](#), and a growing presence on [Gab.ai](#) with 88 followers.

Support & Web Team

SmartCash has been added to Changelly! Look for Changelly to be integrated into more wallets and pages in the coming weeks.

SmartCash is now on the up and coming Brazilian exchange, Bluetrade.

Miners using the dual-mining software Claymore must update to the latest v11.9 version for Keccak shares to be accepted.

All SmartNodes must be updated to v1.2.3 to be eligible for inclusion in the block rewards. Be sure to update your SmartNode!

An updated estimated block rewards calculator is being developed for SmartNodes. The JSON feed is available currently.
