

# Promote transparency and productivity

Traction® Tools is an officially licensed software for EOS®, but we are SO much more than a meeting agenda. Traction Tools brings all your EOS tools to one spot in a simple, intuitive, functional (and dare we say fun 🤪) way.

## So, what makes Traction Tools so great? Glad you asked.

### We're the real deal

Even EOS Worldwide's leadership team uses Traction Tools to run their Level 10 Meetings™. As an officially licensed software for EOS, you can trust us.

### We keep your team on track

As an entrepreneur, you're a risk-taker and a big picture visionary—leave the day-to-day details to us. Our features will help your team get straight down to business: anticipate trends, establish priorities, set the course, review outcomes and pivot accordingly.

### We've got your essentials covered

Each Traction Tools account includes the essentials for EOS: the Level 10 Meeting™, Scorecard, Rocks, People Headlines, To-Dos, Issues list, V/TO™, Accountability Chart, and the list goes on and on. We have EOS down pat.

### We go above and beyond

We don't stop at the essentials—we're extra like that. With us, you'll also get Text-an-Issue™, Text-a-People-Headline™, Text-a-To-Do™, daily To-Do reminders, one-on-one meetings, Workspace, Context Aware To-Do™ and Context Aware Issue™. Plus, we're *really* good at hosting virtual meetings.

### We're here when you need us

Take advantage of the unlimited training and support that comes with your account, and get your crew up and running with real time answers. We've got your back. Always.

## Try it out for 30 days, on us!
